

### **1. How can we make participation for new GSRs rewarding?**

- What do we do well? What could we do better?
- Is too much being asked of GSRs by districts, counties, and the Area collectively?
- Does meeting in rotating counties serve us well, or should we change back to a centrally located set location with the various counties rotating Hospitality, set up and clean up?
- Are the workshops informative? Are we missing something? What else would you like to see at Assemblies? Should we have workshops to help people leading & participating in business meetings, setting up committee members for success, chairing events?
- Unity: Are we forming into cliques along county lines? Or other ways?

### **2. What else can we do to more deeply involve groups in the Conference process?**

- How are we living Concepts 1 & 2? How can we do more to have the groups energize the Conference process? How can we communicate the Conference process to energize the groups?
- Are GSRs getting enough to participate effectively ahead of time to participate in business?

### **3. What do you think?**

- What is the purpose(s) of SENY?
- Where do you think you would be today if the only thing that AA did was hold AA meetings?
- When does SENY exercise its Right of Decision? Are mundane matters often sent to the groups?
- Do all groups know about the Area and the services we provide?
- Do we keep in touch with groups who don't send representatives to district and area events?
- If we were just creating an Area structure, what would we do differently?
